

ARID-Dry CDH-R-138

ARID-Dry Industrial Mobile Desiccant Dehumidifier

These units are easily maneuvered with a lift truck. The powerful desiccant dehumidifier with its double wall insulated construction, galvanized steel exterior, microprocessor controller for reactivation rate and safety control makes the Industrial Series the best choice for Restoration, Construction, Industrial Coating and Painting, and Corrosion Prevention applications.

AVAILABLE ACCESSORIES

- Remote Humidistat
- Cooling Coil Modules
- Heating Coil Modules
- Trailer Mounting with generators
- 5.0 Static Pressure External
- 18" or 20" Round Connections
- Protective Cage

Product Specifications

CFM	6,000/5,000
Fuel Type	Gas or Electric
Max Air Volume	6,000
Moisture Removal (80°/60% RH)	404 gpd
Pipe Size	3/4in
Inlet Pressure	7-14" w.c.
Electric Reactivation FLA Load (460/3/60)	147
Gas Reactivation FLA Load (460/3/60)	21
Gas Max Usage NG	400,000 BTU
Max Usage LP	4.4 gph
Dimensions (W×L×H)	169×51×86in
Weight	5,300 lbs
